WHY DO WE LOVE?

I often think each tottering form,

That limps along in life's decline;

Once bore a heart as young, as warm,

As full of idle thoughts as mine,

And each has had his dream of joy,

His own unequalled pure romance,

Commencing when the blushing boy,

First thrills at woman's lovely glance.

And each could tell his tale of youth—

"Would think its scene of love evince,

More passion, more unearthly truth,

"Than any tale before or since—

Yes, they could tell of tender days,

At midnight peeped, in classic shades,

Of days more bright than modern days—

Of maids more fair than modern maids.

Of whispers in a willing ear,

Of kissing on a blushing cheek—

Each kiss, each whisper, far too dear

For modern lips to give or speak—

Of prospects too, untiring crossed,

Of passions slighted or betrayed,

Of kindred spirits early lost,

And buds that blossomed, but to fade,

Of beaming eyes and tresses gay,

Elastic form and noble brow,

And charms—that all have passed away—

And lost them—what we see them now!

And is it thus—is human love

So very light and frail a thing?

And must youth's brightest visions move

Forever on time's restless wing,

Must all the eyes that still are bright,

And all the lips that talk of bliss,

And all the forms so fair to sight,

Hereafter only come to this?

Then what are Love's best visions worth,

If we at length must lose them thus?

If all we value most on earth,

Ere long must fade away from us?

Or that one being whom we take

From all the world, and still recur

To all she said and for her sake

Feel far from joy when far from her,

If that one form which we adore,

From youth to age, in bliss or pain,

Soon withers and is seen no more—

Why do we love if love be vain?

THE STOLEN CHILD.

BY MRS. CAROLINE C. BROWN.

Continued.

"No, I was in a room that smoked so I could hardly see, and he and two more bad looking men were laughing and talking and singing and kept drinking out of a bottle. I was frightened, and began to cry and told them I wanted to see Bridget, but they laughed and said I should never see her any more. Do you think I ever shall?" said she, looking earnestly at Mrs. Benson.

"May be you will if you are a good girl, but if I take as good care of you as Bridget did, perhaps you will like me as well."

Mrs. Benson asked her many more questions, but she could elicit no answer which threw any farther light upon her origin or situation, previous to her being stolen. At night, when Mrs. Benson had prepared her a little bed close by her own, and commenced divesting her of her tattered garments, the child remarked that Bridget always took them off for her, but the man said it was too much trouble, and made her sleep with them on. It was owing to this circumstance, probably, that a little silk pocket, an article at that time worn by females of all ages, escaped his notice. As the repository of some of her choicest toys, the child had the prudence, or cunning, or whatever else the feeling which actuated her may be designated by, to refrain from revealing the

possession of what to her was as valuable as to the miser, are his bags of gold. One of them Mrs. Benson resolved to preserve, as she imagined it might be recognized by Ellen's relatives, should she ever be so fortunate as to meet with them, and be the means of proving her identity. This was a small ivory box curiously carved and gilded, the lid of which, upon pulling a wire, would fly back and a tiny bird hop out and perch upon the edge, uttering at the same time a chirping noise as if rejoicing at its escape.

The next day, it was Mrs. Benson's first care to procure such materials as her limited means would permit, for the child some clothing; and her tattered garments were soon exchanged for those neat and clean, though of coarse texture. Though a somewhat difficult task to disentangle her matted hair; when accomplished, it clustered round her forehead, and temples, and fell down her neck in such soft, bright, curly, that Mrs. Benson was delighted. It was true that it formed rather too rich and abundant a shade for her pale, meager face, but this, knowing the tried virtues of, plenty of good bread and milk in rounding and giving color to the cheeks, Mrs. Benson thought a very trifling consideration. As she wished to do right concerning her, she thought it necessary to advise with some person of sound judgment and good learning. For some time she hesitated between the doctor, the lawyer, and the minister, the only three persons in the place who knew Greek and Latin, which, in her opinion gave great weight and consideration to their character; as she esteemed them all as worthy men, it is probable that she finally decided in favor of Mr. Crawford, the minister, on account of his living nearer to her than the others. Accordingly, after she had arranged her household affairs, she took little Ellen by the hand, and walked over to the parsonage. She told Mr. Crawford her story, who, after considering it a while, advised her for the present to let the matter rest, for should they institute an inquiry, it would not be likely to end in any satisfactory result, and might occasion both trouble and expense. As this advice was in accordance with her own feelings, for already she began to feel averse to parting with the child—she was very ready to receive it. On their way home, as Ellen ran on before to chase a butterfly, or to pluck some wild flower springing by the way-side, and she marked her graceful motions, and her hair which, stray ing beneath her bonnet, gleamed like gold in the bright sunshine, an emotion of pride swelled her bosom, as she thought she would soon be as pretty as Mary Crawford, the handsomest child that went into the meeting house. In her own mind, the next time she went to town to sell her linen thread, she intended, with the proceeds, to purchase Ellen a blue silk bonnet, and some sprigged jackonet muslin for a frock.

# NEWPORT DAILY NEWS.

TUESDAY, OCTOBER 6, 1846.

New London, Oct. 2, 1846.

DEAR NEWS.—The weather has been so cool to-day, that cloaks and fires have been in requisition, and are very comfortable.—Yesterday was a lovely day, and resembles more the delightful weather of Newport, last August, than such as we might expect in October.

Yesterday, I attended the Ordination of the Rev. John P. Gulliver, over the Fifth Congregational Church and Society, in Norwich; the sermon, on this occasion, was preached by the Rev. Mr. Park, Professor of the Andover, (Mass.) Theological Seminary. The Ordaining prayer was offered by the Rev. Dr. Nott, who is a very remarkable man! This old divitie, who is, I believe, in the *ninety-third year of his age*, is yet a scolded pastor over a congregation in Franklin, (a town adjoining Norwich,) where he has been ever since he entered the ministry, which is over *sixty years ago*. Notwithstanding he is so old, his eyesight is good, without the aid of spectacles, which he does not, and never has used.

This morning, I had the pleasure of a visit on board the U. S. Rev. Sclir. Jackson, Lieut. Cornell, which was lying at anchor, in this harbor. Through the politeness of Lieut. Prouty, I was furnished with copies of the *News*, in advance of the mail, which were very thankfully received.

The late reports from the whale ships, on the North-West Coast, are rather unfavorable, and have put a slight damper on business here, though it is anticipated that next season there will be more ships fitted out, at this port, than in any previous season.—The McLellan has recently returned from a cruise in Davis' Straits, for whalers, where her success was not as good as was anticipated.

She is the first American ship that has ever been sent up in those cold regions, for whales, though it has long been known to the English, as a whaling-ground. This ship is to be fitted out for another cruise in those regions, and will sail in January, 1847, which will give her a full season on the ground; and it is thought she will do well; for her poor success on her last voyage was attributed to the lateness of the season at which she sailed, which was in March, and consequently did not reach her destination until the season for taking whales was over.

New London has become quite a fashionable watering place, and I am informed that the Hotels here, of which there are but two: "Bacon's," kept by Wm. Bacon; and the "City," by Walter Edwards, have done a better business during the last summer, than ever before. These Hotels are kept in such a manner, that they are calculated to make a favorable impression on the minds of those who have ever stopped at either of them. This evening, at Bacon's, we had fresh *Shad* for tea, which is quite a rarity, at this season of the year; they were taken in the Connecticut River. Adieu, for the present!

O. F. J.

RESIGNED.—The Hon. Thomas Sergeant, one of the Associate Judges of the Supreme Court of Pennsylvania, has resigned his office, and resumed his practice at the bar of Judge S. is one of the ablest lawyers in the State.

General Jessup is ordered to the South to superintend or look into every thing appertaining to the economy and sufficiency of the army supplies, transportation, &c.

LOOK OUT FOR A CRASH!—We have in our possession the MSS of an article, entitled "THE MYSTERIES OF ODD FELLOWSHIP," which gives a full and complete *expose* of all the secrets of the Order, from the *Initiation* in a Subordinate Lodge, to the *Royal Purple Degree* of the Encampment. It is well-written, and goes fully and thoroughly into all the minutiae of the forms and ceremonies of this mysterious Institution, as completely as it can be done on paper; and if our readers have not a rich treat in store, we very much misapprehend their tastes. After the publication of this article, we shall all be as good Odd Fellows as the best, and can all recognize each other in the street, or in a crowd, by the mysterious signs, &c., of the allied Brotherhood. We suppose there will be a terrible excitement among the members, but we cannot help that; we shall certainly commence the publication of the *expose*, in the course of a few days; so look out for fun, and prepare to shake your sides most heartily, for we can assure you that it vastly exceeds anything that has been published, particularly in this community, for a long time. In fact, it never was equalled.

PICTURE OF COLUMBUS.—In the packet ship Havre, from Havre, arrived at New York on Tuesday, came passenger Mr. Vanderlyn, the Artist, with his picture of the landing of Columbus, which is intended for the Capitol at Washington. The success of this picture is highly spoken of, and we learn our Legation at Paris has expressed to the Government their great satisfaction with the completion of this work.

Corporal Streeter's Boston Daily Star, a first rate paper, and heretofore neutral in Politics, has hoisted the Whig flag, and gone into the battle with great vigor.

The Daily Chronotype, Boston, has been enlarged, and is now of very respectable size; this is evidence of prosperity, for whales, though it has long been known to the English, as a whaling-ground. This ship is to be fitted out for another cruise in those regions, and will sail in January, 1847, which will give her a full season on the ground; and it is thought she will do well; for her poor success on her last voyage was attributed to the lateness of the season at which she sailed, which was in March, and consequently did not reach her destination until the season for taking whales was over.

U. S. FRIGATE CONSTITUTION.—This fine and renowned old ship arrived at Boston, it is known, a few days since. She has returned from a cruise of nearly three years, during which she has sailed round the world, and touched at between eighty and ninety ports. "Old Ironsides" was about five hundred and two days at sea, and three thousand and eighty nine days at anchor. She sailed on this cruise, more than fifty-three thousand miles, and averaged more than a hundred miles per day during the time she was at sea. This old ship ought never to be broken up, but her model should be preserved as long as her planks and timbers will hold together.

LOVEJOY'S HOTEL SET ON FIRE.—A well-dressed person, bringing a fair show of baggage, took lodgings on Thursday at Lovejoy's Hotel, in New York, being assigned to the highest room in the house, as that was the only one vacant. About half-past 7 o'clock, he went out, says the Tribune, and hung the key of his room in the usual place in the bar room. In about ten minutes after, a chambermaid discovered smoke issuing from his room, and giving the alarm, the door was forced, and the bell discovered to be on fire. With difficulty the flames were subdued, when it occurred to examine the baggage of the new lodger. The trunks were opened, and found to contain—nothing.

MAINE.—Bangor elected two Whigs William Paine and E. L. Hamlin, on Monday last. Belgrade also elected one. The House now stands 46 Whigs, to 45 Democrats.

It is expected that an exceedingly rich and delicate case will come off this morning at the Town Hall, at 9 o'clock, between two of the official dignitaries of Newport,—viz.: "Bulwer" and "Old Hays." Attend, if you want to see sport.

Owing to previous arrangements Manchester & brother will be under the necessity of closing their Daguerreotype rooms, corner of Thames and Mary-streets, Newport, within a short time, (probably eight or ten days,) therefore would say to the good people of this place who wish to present their friends with an invaluable memento, that they can never do better than to give us a call soon. Young lady, bring in that venerable father and watchful mother, and secure a good likeness to-day, for tomorrow it may be too late. Mothers, bring in those little ones with curling hair and sparkling eyes; they will make pretty pictures, and then should they be taken from you, you can exclaim, in the language of the poet:

Gone to their rest, yet we would not recall them Back to this region of sorrow and pain; Gone to their rest where no ill can befall them—

Yet we have their likeness both perfect and plain.

A certificate from the Hon. annual Quarles, who is well known throughout the N. E. States,

Mr. James Kidder, Jr.—Dear Sir—I have enclosed a certificate in recommendation of your Dandelion and Tomato Panacea, which you are at liberty to publish if you think proper.

TO THE PUBLIC.—I have suffered much for a number of years past with the Liver Complaint, Dyspepsia, &c., and have taken various medicines, none of which effected a cure, until I took five bottles of James Kidder, Jr.'s Dandelion and Tomato Panacea, which, under the blessing of God, has restored me to comparative good health, being over 78 years of age. I can with confidence recommend said Panacea to the public as a valuable medicine. (Signed)

SAMUEL QUARLES,

Dr. Danning's Patent Body Lace, For Weakness of the Body.

The following letter is submitted to a discerning public, and the proprietor is enabled to refer to many individuals—whose testimony will satisfy the most incredulous. Be particular and get flannel's Lace, and be put off with nothing else.

New and More Testimony.

WARREN, August 22, 1846.

Dr. Boardman—Dear Sir.—Now, being about leaving for home, I am able to give thus far a favorable account of the Lace which I have worn only four days. For more than four years I have suffered greatly from dyspepsia, that scourge of our race. My food has always been so troublesome that my stomach would reject it almost every day—my bowels always constipated—my head always feeling heavy and unpleasant, and my spirits greatly depressed. I was unfeasted for any regular business, and till I saw you, I had given up the hope of ever being better. I had consulted many physicians, and in Boston, those the most celebrated, and spent nearly all the money I could earn, upon them and medicines. Since I have worn the Lace, all these symptoms have in a great degree vanished, and now, it seems to me, I shall be well again. I find my body regaining its erect position—the splitting up my food is pretty much over, my spirits and energy are returning, and I feel like a new man.

Bogle's HYPERION Fluid; Or Vegetable Hair Composition.

THE subscriber has been induced to bring this article before the public, at the request of his numerous customers, among whom are physicians and citizens of the first respectability, who have adopted its use in their families, and wish others to participate in its advantages.

The Hyperion is composed of vegetable ingredients, the secret of compounding and blending which is known solely to the subscriber. It is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture never before attained, yet free of animal grease or essential oils. It cleaves the pores of the skin, causes a healthy action in the blood vessels, nerves, &c., which feed the hair, thereby preventing BALDNESS AND GREY HAIR.

It entirely frees the skin from Scurf, Dandruff,

and other cutaneous diseases, dispenses the hair to

curl, and changes the harshest hair into the most

soft, glossy, and healthy state, also imparts to it a

dark color, and the free use of it, both on the

skin and hair, in a most healthy and luxuriant

state until the latest period of life.

Ladies will find the Hyperion a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the fluid, can be dressed in any required form, so as to

preserve its place, whether plain or in coils.

When used on children's heads, it lays the foundation of a good head of hair.

Manufactured and for sale by WM. BOGLE, 228 Washington, corner of Summer street, Boston.

Sold in Newport by R. J. TAYLOR.

A Treatise on the Anatomy and Physiology of the Hair, with directions for preventing baldness, removing dandruff, and preserving the natural beauty and softness of the hair, by WM. BOGLE, accompanies each bottle.

#### DR. BANNING'S PATENT LACE!

An immediate Relief to Incipient Consumption, Bronchitis of Public Speakers, Palpitation of the heart, Dyspepsia, Spinal Weakness, Piles, Proctosis, and Diseases of Women, without Medicines.

THIS instrument has been examined by Drs. Mott, Rodgers, Francis, and Griscom of New York, the faculty of Pittsburgh, Hartford, New Haven and Middlebury, and has obtained for itself their favorable testimony. The following will show what kind of testimony might be produced in many cases:

Middleton, June 25th, 1843.

Dr. Boardman,

Sir—In answer to your inquiry respecting my case, I will merely say, that I have been sick since I strained my breast and loins in May, 1840; from that time continued to grow worse, when in the fall of '39, I abandoned business, and have not done any thing since.

I suppose from all I could learn about my case—frequently raising blood, coughing very hard and expectorating profusely, deriving no benefit from my physicians, and all medicines recommended to me, that my case was hopeless. Last winter my brother told me he had heard a good account of Dr. Banning's Lace in such cases, and was anxious that I should try it; accordingly I procured one from you, and since I began to wear it, my breathing, which was very short and laborious, has become easy and natural; the pain and fluttering or palpitation of the heart has subsided; cough and expectoration greatly lessened, my limbs which were exceedingly painful have become useful, so that I can walk comfortably. I am able to shave myself with comfort, which for many years I have not been able to do. The pills, which have troubled me for nine years, are nearly eradicated; I work some in the garden, and am able to ride 4 miles at once with pleasure and benefit.

Yours, &c. WM. RANNER

Dr. G. M. Boardman,

Middleton, June 25, 1843.

Dr. Boardman,

Dear Sir—In answer to your inquiries respecting the effect of Dr. Banning's Lace in the case of my wife, I will state that for twenty years past, she has been afflicted with a complication of complaints to which females are subject. She has tried all the physicians and all the medicines recommended for such complaints, without regard to expense, and found only temporary relief.

Her most distressing complaints, palpitation of the heart, oppression and a sense of great weight at the pit of the stomach, proptosis of the womb, &c., were believed after wearing the lace two hours, and she has continued to improve daily. With this view of the case I cannot use language strong enough to convey my approval of the instrument.

STEPHEN BROOKS, JR.

PROVIDENCE, Feb. 26, 1846.

Doctor Boardman—Dear Sir—I now take my pen to inform you that my wife's health has improved very fast for the last two weeks from wearing one of your Laces. She has been out of health about two years and has worn a different Supporter from yours, which had only two pads. She received some benefit from that—but it would not produce a cure. But now I can say with pleasure that she is as smart as any of the young girls in the neighborhood. She can now run up and down stairs as fast as I can, and I feel so well pleased with it that I hardly know how or what to write. But one thing I do now, that she has been under the care of seven Doctors in one year—and wearing your Lace two weeks, has or will do the cure in very short time. I want to write more, but I have no time. I am truly, your friend and well-wisher,

J. \*.

### The Great English Physician,

AMONG the many eminent Physicians, whose names have been recorded in history, and handed down to posterity as skillful operators and scientific practitioners, who by their extraordinary knowledge of Anatomy, Physiology, Chemistry, and the Materia Medica, there is not one who occupies a more elevated station in the eyes of his professional brethren, than the GREAT ENGLISH PHYSICIAN, Sir ASTLEY COOPER, the original inventor of Sir Astley Cooper's Pills. These truly celebrated Pills, unlike all other purgatives in the form of Pills, do not debilitate or weaken the patient, while under their influence, neither do they give, or produce sickness, or nausea. In cases of Cholick, Bilious Fevers, Fever and Ague, Cholera Morbus, Hydrocephalus, Constipation, Indigestion, Dyspepsia, Worms, Piles, Gravel, Coughs, Colds, Inflammation, and all diseases arising from change of climate, temperature of weather, Improper tone of the stomach, or Insanity of the Blood, — these valuable Pills are the most efficacious medicine in the world. Where these Pills are used, no other medicine is required. The Sir Astley Cooper's Pills are sold at 25 cts. per box, with full directions, by R. J. TAYLOR, Newport.

Wholesale Agency, 91 Hudson st., New York.

*Portland, Me., Nov. 7th, 1813.*

Sir: Please send us one gross of Lorraine's Pills, we have sold all we had last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time they will take the place of others. We have had no fault found with them, whatever; but, on the contrary, they have been praised loudly. I think we could have quite a number of highly respectable certificates from our citizens.

Yours respectfully, E. MASON.

*Chelmsford, Jan. 3d, 1814.*

Sir: I transmit to you an account of my case for publication, believing it to be my duty. I have been confined with the Rheumatism nearly the whole winter, have had some of the best physicians of Boston and could get nothing that would relieve me more than temporarily. I heard of the wonderful virtue of Lorraine's Pills, I had no faith whatever, but I took them, and it is a solemn fact that when I had taken but eight pills! my Rheumatism had entirely left me, and I have remained well ever since.

N. B. I never took more than one pill at a time and that on going to bed.

Yours respectfully, W. M. HALSTAL.

### OPINION OF A SKILFUL PHYSICIAN.

Sir, the operation of Lorraine's Pills is past any philosophy to find out, how so small a Pill can produce such wonderful effects. I find that one of them will operate more than 3 or 4 of any other Pill, yet in their operation, mild, gentle and comforting. On this account, they are more than 100 per cent, cheaper, as physic, than any other Medicine I know of.

These Pills are now acknowledged by thousands who take them daily, to be the only medicine that fairly takes the Bannister from all others. This extraordinary medicine has actually done Wonders within one year past. They cause no pain or uneasiness of any kind in their operation, and require neither change of diet or care of any kind.

The attention of the reader is respectfully called to the important results from the use of these Pills. It will be seen, however great achievements have heretofore been made by the use of this invaluable medicine, still greater and more remarkable cures daily happen.

DR. LORRAINE'S CURATIVE SYSTEM OF MEDICINE is rapidly producing achievements never before known in the cure of diseases. The immensity of its wonderful results, alone demonstrate that its principles must be founded on truth. The relative proportion of Cures by this Medicine is out of all proportion greater, than by any other Medicine known.

THE THEORY is, that one blood beats in the bosom, and flows through the body of every man, and must be pure, it is the Vital Principle that sustains life.

Physicians, and people of every class are willing to come forward and announce, in the most public manner that they have been cured of long standing complaints—after another medicine had failed. In act there can be no doubt but that Lorraine's vegetable Pill is the best medicine ever offered to the public.

See a few public statements of men of truth and virtue.

*Lynn, Dec. 17th, 1813.*

Sir: I have sold all the pills I last had of you, please send another lot immediately. The sale of Lorraine's vegetable Pills is rapidly on the increase, they are becoming very popular. I sell more and more every day. As a curative medicine and purifier of the blood. I think they stand unrivaled. One fact I have noticed, that no one that has used them finds any fault with them; they have wrought some very great cures. One lady, who has been confined to the house and bed, great part of the time, for twenty years, is now cured and able to work most of her time, after having taken 3 boxes only of Lorraine's Pills! I might name many other cases where the cures have been as great, but have not time. Yours respectfully,

Sir, the operation of Lorraine's Pills is past any philosophy to find out, how so small a Pill can produce such wonderful effects. I find that one of them will operate more than 3 or 4 of any other Pill, yet in their operation, mild, gentle and comforting. On this account, they are more than 100 per cent, cheaper, as physic, than any other Medicine I know of.

These Pills are now acknowledged by thousands who take them daily, to be the only medicine that fairly takes the Bannister from all others. This extraordinary medicine has actually done Wonders within one year past. They cause no pain or uneasiness of any kind in their operation, and require neither change of diet or care of any kind.

The attention of the reader is respectfully called to the important results from the use of these Pills. It will be seen, however great achievements have heretofore been made by the use of this invaluable medicine, still greater and more remarkable cures daily happen.

### LORRAINE'S PILLS.

All persons require Pills.

DR. LORRAINE'S CURATIVE SYSTEM OF MEDICINE is rapidly producing achievements never before known in the cure of diseases. The immensity of its wonderful results, alone demonstrate that its principles must be founded on truth. The relative proportion of Cures by this Medicine is out of all proportion greater, than by any other Medicine known.

THE THEORY is, that one blood beats in the bosom, and flows through the body of every man, and must be pure, it is the Vital Principle that sustains life.

Physicians, and people of every class are willing to come forward and announce, in the most public manner that they have been cured of long standing complaints—after another medicine had failed. In act there can be no doubt but that Lorraine's vegetable Pill is the best medicine ever offered to the public.

See a few public statements of men of truth and virtue.

*Lynn, Dec. 17th, 1813.*

Sir: I have sold all the pills I last had of you, please send another lot immediately. The sale of Lorraine's vegetable Pills is rapidly on the increase, they are becoming very popular. I sell more and more every day. As a curative medicine and purifier of the blood. I think they stand unrivaled. One fact I have noticed, that no one that has used them finds any fault with them; they have wrought some very great cures. One lady, who has been confined to the house and bed, great part of the time, for twenty years, is now cured and able to work most of her time, after having taken 3 boxes only of Lorraine's Pills! I might name many other cases where the cures have been as great, but have not time. Yours respectfully,

J. E. F. MARSH.

*Portland, Me., Nov. 7th, 1813.*

Sir: Please send us one gross of Lorraine's Pills, we have sold all we had last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time they will take the place of others. We have had no fault found with them, whatever; but, on the contrary, they have been praised loudly. I think we could have quite a number of highly respectable certificates from our citizens.

Yours respectfully, E. MASON.

*Chelmsford, Jan. 3d, 1814.*

Sir: I transmit to you an account of my case for publication, believing it to be my duty. I have been confined with the Rheumatism nearly the whole winter, have had some of the best physicians of Boston and could get nothing that would relieve me more than temporarily. I heard of the wonderful virtue of Lorraine's Pills, I had no faith whatever, but I took them, and it is a solemn fact that when I had taken but eight pills! my Rheumatism had entirely left me, and I have remained well ever since.

N. B. I never took more than one pill at a time and that on going to bed.

Yours respectfully, W. M. HALSTAL.
